**ABSTRACT**

Based on the initial survey conducted by the author, it was found that the level of political awareness of first-time voters in Lamongan Regency is still low. This can be seen from the many assumptions that there is no point in participating in the pilkada and the opinion of some groups that the implementation of the pilkada is just in vain. The purpose of this study is to determine the problems of political awareness among first-time voters in Lamongan Regency, as well as to provide solutions to increase the political awareness of first-time voters in preparation for the 2020 Lamongan Regent Election. The method used in this study is a mixed method or a combination of qualitative and quantitative, while the collection method The data used in this research is the method of observation and data collection using a questionnaire. The questionnaire is in the form of a closed questionnaire distributed to 65 samples of first-time voters in Lamongan Regency who will take part in the 2020 elections for Lamongan. Based on the results of the research that has been done it can be concluded that the level of political awareness of first-time voters in Lamongan Regency is still low, the data shows that there are 48% of the total sample with a low level of political awareness. The low level of political awareness of first-time voters is influenced by many factors, one of which is the lack of information sources they get. The author created the Si Pilang website (Lamongan Pilkada Information System) to support the political awareness of first-time voters in Lamongan Regency in preparation for the 2020 Lamongan Regent Election. Based on the results of the research that has been done, it can be concluded that the level of political awareness of first-time voters in Lamongan Regency is still low, the data shows that there are 48% of the total sample with a low level of political awareness. The low level of political awareness of first-time voters is influenced by many factors, one of which is the lack of information sources they obtain. The author created the Si Pilang website (Lamongan Pilkada Information System) to support the political awareness of first-time voters in Lamongan Regency in preparation for the 2020 Lamongan Regent Election.
